

ALBERTA PRODUCE MEN ADOPT STANDARD GRADE FOR ALL EGGS HANDLED

Produce men throughout Alberta adopted a new system of grading eggs on March 1st. The intention is not to deprive the producer of his rights, but to ensure that the consumer gets the best and strictly fresh eggs shall be paid for the grade of stock he has to offer, while the consumer will be assured that he is getting just what he pays for, and is, therefore, guaranteed that when he buys strictly fresh eggs he will get full value for the money he pays.

Under this new understanding all eggs will be purchased by the dealers only on their merits and according to the grades prescribed under the standards fixed by the association. For all persons concerned this will be the most satisfactory method. In Alberta last year the production was worth \$3,776,000.

In speaking of the system to a Canadian representative, J. Harris, of the Harris Dairy Co., said, "It is a very practical system, the same grades have been in effect in Alberta for several years but has not been enforced as strictly as they should have been."

It will mean that central merchants will probably be more careful in buying eggs from the farmers for in re-selling they will be paid according to the standard grade adopted by the produce men.

Specials—Eggs of uniform size, weighing over 24 ozs. to the dozen or over 45 lbs. net to the 30 dozen case, absolutely clean, strong, and sound in shell, set single, not over 3.45 for an inch in depth (measured from top of cell to outer rim) white of egg to be firm and clean and yolk finely visible free from blood clots.

Extras—Eggs of good size, weighing at least 24 ozs. to the dozen or 45 lbs. net to the 30 dozen case, clean, sound in shell, set single, not over 3.45 in depth (measured from top of cell to outer rim) white of egg to be firm and yolk only slightly visible.

No. 1'S—Eggs weighing at least 23 ozs. to the dozen or 43 lbs. net to the 30 dozen case, clean, sound in shell, set single, not over 3.45 in depth (measured from top of cell to outer rim) white of egg to be reasonably firm, yolk may be quite visible but mobile, not stuck to the shell or seriously out of place, are not necessarily stationary.

No. 2'S—Eggs clean, sound in shell, may contain weak, watery eggs and eggs with very small, but all other eggs sound in shell and fit for food.

The following regulations relative to standards have been adopted by the produce dealers:

Classes and grades of eggs gathered, storage, cracked and dirty.

Classes—Specials, extras.

Grades—No. 1's and 2's.

Allowance for deterioration, in transit, 10 per cent. That is, eggs should grade 100 per cent. 90 per cent. of grade made at point of shipment.

OVER A QUARTER MILLION
PAID FOR ALBERTA HORSES.

Over a quarter-million dollars has been paid to the farmers and horsebreeders of this province by the Dominion government for horses purchased for the second contingent. The office in Calgary closed last week, and Provincial Agent, Commissioner George H. Hurdley, has given out the official figures as follows:

Troopers, 1,140 purchased at an average price of \$134.92; total, \$153,630.88. General purpose, 224 purchased, averaging \$154.83; total, \$34,661.92. This makes a grand total of both classes at an average price of \$141.50, or a total paid of \$288,292.80.

Originally there was a requisition for 778 horses for the provincial units, which was afterwards increased by a few hundred so that Alberta horsemen have been given a market for more than double the number of horses required for our own men. Alberta has been one of the best recruiting provinces in the Dominion and it looks as though there was an ample supply for more than double the number of horses of this province and others as well.

Until the figures from the other provinces are available it will be impossible to say just where there

was a shortage in suitable horses, but it is evident that Alberta has the supply.

Some criticism has been directed against the commission for demanding horses that were, theoretically broken, but when the seriousness of the work for which the horses are required is taken into consideration it can readily be seen that the horses have to be gentle. Military men, who have had experience in South Africa have repeatedly commended the buyers for insisting on the horses being quiet. When one mounted infantryman has to look after four horses at the rear of his comrades while in action he has enough trouble on his hands without having to do any animal taming. Then in the rear of battle when the men come back to the front, horses will naturally be nervous and one or two unbroken animals may disorganize the whole movement by refusing to allow its rider to mount.

MYSTERY VILLAGE BELIEVED HAUNT OF MURDER GANG.

North Battleford, March 13.—Richard, a Sask., a hamlet of a score of souls, the scene of the mysterious disappearance of Charles Lewis about March 1, is becoming a village of mystery. Following the disappearance of Lewis, with \$250 belonging to the Turner Valley Elevator Company, Charles Nash, a homesteader, is now being sought by the mounted police and the people of the entire countryside, no trace of him having been found for more than a month.

Following the suspected murder of Lewis, mounted police scoured the north country in search of Nash, with no result. He is believed to have disappeared a week before the Lewis mystery. Numerous thefts of grain have caused ranchers to suspect the operation of an organized gang of thieves and possibly murderers.

The Lewis mystery is still in deep air. His wife at Langham is prostrated with grief.

MRS. ROCKFELLER CALLED BY DEATH.

New York, March 12.—Mrs. John Rockefeller died at her home in Tarrytown, N.Y., early today. The woman who shared Mr. Rockefeller's fortunes and made money-making was a school teacher. She was Laura Spellman, a schoolmate in Cleveland who fell in love with the hard-working young man long before he was recognized as an industrialist.

The marriage was celebrated September 8, 1864. For the half century following she administered the affairs of the household along the conventional lines, which the richest man in the world desired to the last.

In tribute to her he once said: "Had it not been for my wife's business sagacity, and her clear insight into affairs, I could be a poor man. Many times her advice has been counter to my ideas, but her judgment invariably proved the better."

12 SUBMARINES OF GERMAN NAVY REPORTED MISSING.

London, March 12.—A despatch to the Daily Express from The Hague says: "A secret report has been sent from Constantinople to the admiralty at Berlin that 12 submarines have failed to report at their base, eight of them being among Germany's newest boats." naval council will meet today or tomorrow under the presidency of Emperor William to discuss whether or not it would be better to abandon the submarine war.

GUILITY OF MANSLAUGHTER.

St. Catharines, Ont., March 11.—Private Frank Harcus of the 19th regiment, accused of the murder, October 7 last by shooting of Private Theodore Burgoyne, 17 years old, while the two were on guard duty on the Welland canal was found guilty of manslaughter by a jury in the assize court last night. Mr. Justice Sutherland presiding. Sentence will be pronounced tomorrow.

ROUNDED GERMAN DRAGS AGED MAN AT END OF ROPE.

Paris, March 12.—The treatment of French civilian prisoners, women and children—at the hands of the Germans, is the subject of a report issued by the French office yesterday. This report is the work of a standing committee appointed by the French government to inquire into alleged violations of international law. It relates that about 10,000 French men, women and children had been returned from Germany to France prior to February 28, after having been held as prisoners in German territory. These were the prisoners interviewed by the investigating committee. The only men among them were over 60 years, or boys under 17.

The report of the committee contains about 7,000 words. Among the details given are the following:

Prisoners from Roubaix were loaded into cattle cars so close that it was impossible for them to get down. They remained in these cars 72 hours, during which they received food only twice.

Nineteen men were taken prisoners at Valenciennes at the beginning of the German retreat from the Marne. One of them, named Jourdain, was shot at Coulombs. A man named Lieven, 61 years old, was dragged into a cemetery and shot. A man named Menil, aged 57, was killed by a rifle shot at the same place. A Villardet, aged 78, was shot at Chazy-en-Oise. All these three men died because they were not able to keep up with the prisoners.

On September 28, Crampey, aged 61 years, suffering from a fractured foot, and Fortin, aged 65 years, crippled with rheumatism and unable to walk without a cane, were arrested on the pretext that they were guerrillas. Fortin was tied up with a rope, the end of which was held by a mounted man. Thus he was dragged along and obliged to keep pace with the horses. Falling repeatedly, the cavalrymen struck him with their lances. Finally, covered with blood, this unfortunate begged the soldiers to stop.

The report states that the conditions in certain concentration camps in Germany also sets forth that prisoners without money are almost dying of hunger. About 300 of the former prisoners were questioned under oath. Children, it was testified, were separated from their mothers and women from their husbands. Many were still in ignorance of the whereabouts of their husbands.

FRENCH RECRUITS OF 1916 CLASS ARE CALLED OUT.

Paris, March 12.—The chamber of deputies today passed a bill calling out the 1916 class of recruits. These recruits will not be sent to the front, however, until after the men of the older classes are utilized.

A dispatch from Paris, March 5, said the instructions of the class of 1916 recruits has progressed sufficiently for them to go into the active army and that M. Millerand, minister of war, had introduced a bill in the chamber which would give him the authority to send them to the battle line at his discretion. This bill, it was stated, also requested power to call into training the class which was due to join the colors in October, 1916.

GOVERNMENT CONTROL OF ENGINEERING WORKS POPULAR.

London, March 12.—The government's demand for power to take over works adapted to produce munitions of war has been received with universal approval. The bill passing the commons without opposition. Even the bitterest opponents of state socialism admit that present emergency overrides every usual consideration. Lloyd George's handling of the proposal added even to his reputation. His declaration that it better "attach ourselves to the familiar, one of 'Blatant' as usual" would be "Victory as usual" was received with great enthusiasm. "Victory as usual" promises to become the new national motto. Eager to

day produce munitions of war for the whole of the allies. It has recently been evident that further steps were necessary if an adequate rate of production is to be maintained.

The desire of employers to undertake profitable private contracts, with unrest among the workmen, caused a dangerous situation.

The government is now enabled to establish rigid discipline in factories, abolishing trade union labor restrictions and compelling employers to use their entire machinery for national production.

Reports from great manufacturers say one advantage will be that the government can compel workmen to work full time, thus avoiding enormous delays now occasioned, particularly in shipbuilding engineering industries.

The workmen say it will bring excessive profits recently earned. Labor leaders ask that one of the first steps of the new government Socialist program shall be the chartering of government steamers to bring grain cheaply into England.

NO LAY TEACHERS IN SEPARATE SCHOOLS

Calgary, March 14.—If the Calgary Separate School Board can so arrange it, there will be no lay teachers at all in the Catholic schools of the city next September. The members of the board should all be members of some religious body, and with a view to bringing this about, the secretary has been instructed to write the superiors of "The Faithful Companions of Jesus" to ascertain how many teachers of first and second class certificates they could supply for next September and the minimum salary that would be required.

Believing that in the past price giving failed to bring results, the Separate School Board of this city will not donate prizes this year to the children of the city schools, although they will not prevent individuals from doing what they so desire. The secretary has been instructed to suggest donations that may be given and he has been empowered to secure uniforms for the Catholic cadets of the city.

MINNESOTA IS GETTING IN LINE ON PROHIBITION.

St. Paul, Minn., March 12.—Virtually complete returns from the municipal elections held on Tuesday in about 200 towns and cities in Minnesota showed the anti-bath had been successful in more than thirty towns previously in the "wet" column. Four towns that had been without saloons, however, went over to the wet side, leaving the division of towns that voted at 102 dry and 36 wet. Rochester, the largest town voting on the license issue, remained with the wets.

Wet towns known to have gone dry include the following, with names of some still in doubt that are likely to enter the dry lists: Emmons, Deerwood, Jenkins, Wadena, Morrisstown, Pine Island, Minnesota; Motley, Moly township, Norcross, Jackson, Ormsby, Alpha, Fox, Jim, Jugan, Butterfield, Curry, Lamberson, Odessa, Osmia, Prator, Brooks, Danube, Franklin.

NEW GREEK CABINET DE- CLARS AGAINST GOING TO WAR.

London, March 14.—A Reuter's despatch from Athens says the new Greek cabinet took the oath of office Wednesday and also gives the following declaration which was communicated to the newspapers:

"For Greece after her victorious wars, a long period of peace was an indispensable necessity to enable her to work for the prosperity of the country. The organization of her public services and land and sea forces, and the development and wealth of the country, have guaranteed her against any attack on what she has acquired at the cost of such great sacrifices, and would also have enabled her to carry out a program of serving the interests of the state and to adopt a policy conforming to national traditions."

In these circumstances the observance of neutrality was imperative for her from the very

Reasons Why The OLIVER Typewriter Is Superior to all others

5. Stability and Compactness—Apart from platen and keys the Oliver is wholly metal. It is very compact and stands solidly on its base, without vibration when in use. Its metal safeguards protect it from dust and dirt accumulations.

Watch this space for further reasons.

F. H. SCHOOLEY, Agent, Lacombe

beginning of the European crisis. It was, and always has been, an absolute duty to fulfill her treaty obligations as an ally and to seek satisfaction for her interests with out, however, compromising the integrity of her territory. The government, conscious of the duty of thus serving the interests of the country is convinced that the patriotism of the people will ensure these interests."

FIGHTING IN THE CARPATHI- ANS AMID ARCTIC CON- DITIONS.

Berlin, March 12.—Correspondents with the Austrian army headquarters say that battles between the Russians and Austrians are raging in the Carpathian mountains under weather conditions which hitherto had been regarded prohibitory. The mercury is reported to have dropped to 15 degrees below freezing point and the lower temperature has been accompanied by icy snowstorms.

The Russians continue, nevertheless, the correspondent says, to send troops in close formation into battle. Although suffering enormous losses, the Russians are said to be trying to recover their positions without regard for the lives sacrificed. The struggle is described as a battle on ice.

EATE OF DARDANELLES BODIES ILL FOR FORTIFIED BASES OF NORTH GERMANY.

London, March 12.—The Daily Telegraph says: "The Turkish nut is being cracked before our eyes."

The Star says: "The tables are turned on Krupp. What is done at the Dardanelles can be done at Heligoland, Wilhelmshaven, Cuxhaven and the Kiel canal when the time comes."

The Morning Post says: "The house of commons had a shock when Mr. Lloyd George casually proposed to pass a bill in all its stages in one night empowering the government to commandeer all the factories in the country for the production of war material. It is a dangerous power, but these are dangerous times."

TO START WORK AT VERY EARLY DATE ON BRANCH LINES.

Calgary, March 11.—General Superintendent W. A. Brown, of the Canadian Northern, here this morning with Sir Wm. Macdonald and D. B. Hanna, stated that a noticeable improvement in business had been recorded in the west during the past week. Sir William stated that work would be commenced at an early date on the Calgary-Macleod and Edmonton-St. Paul De Mea railway.

JOB PRINTING

The Guardian is prepared to handle all kinds of commercial printing, including envelopes, letter heads, bill heads, business cards, circulars, handbills, posters, etc.

Lacombe 2nd Hand Store

I buy and sell second-hand goods.

I handle Bankrupt Stock—Clothing, Hardware, Furniture, Beds, Springs and Mattresses, the Famous Monarch line of Stoves and Ranges, Cooking Utensils, Trunks and Valises, Galvanized and Enamelware, Sewing Machines, Guns and Amunitions, Phonographs and Records, Musical Instruments of all kinds, and Jewelry. BRITAIN'S FIRST SEA LORD NOT INFLUENCED BY PUBLIC OPINION

IS CALLED THE FATHER OF THE BRITISH NAVY

Baron Fisher has spent Sixty Years in the Naval Service and is
Credited with being Responsible for the Present High
State of Efficiency of the British Fleet

[illegible]

The Canadian government has asked the law officers of the crown in London to say what action should be taken with private property acquired during recent years by the Kaiser in some other prisoners in Ireland and given to the English officer in charge of the prisoners some information which throws an interesting light on the Germans' view of the results of their elaborate system of espionage.

Canada. It is reported that ever since the war began he has been receiving information from Germany through trustees acting for him in the United States. His involvement in international espionage is alleged to have been in the Dominion a day in the Western Hemisphere. He is reported to have warned the banks of Germany to prepare themselves for financing the German Government in case of Europe's collapse.

"That the Kaiser, in making new plans for the future of Germany, had commenced his preparations for the day when Germany would be prevailing against the possibility of deethronement, is widely believed. It is also generally known that the fact that he has insisted on the appropriation to his own personal use of the German Government's funds according to the German officer, is a quarter that as soon as the British mobilization was ordered, the transmission of information was conveyed to the German Government by the state of affairs before the outbreak of the war, and was fully relied on. According to the German officer, the information came from a spy who was supposed to be closely in touch with working plans for the future of Germany."

This spy was in Berlin when war was declared and heard, when the first German troops were sent to the front, was arrested. A similar fate was also met by the spy who was also arrested and evidently been manufacturing information for which they were very much interested in the German officer, according to the German officer, was

[illegible]

...the question of whether or not each farmer should give the crop off one acre of land each year to the patriotic fund, and without exception, as far as can be told, the answer was yes. The central organization are being followed out. In addition to the "patriotic acre" scheme, the farmers are being requested to make cash donations.

Always Consult an Optician

Never select glasses for yourself, and never purchase glasses from a peddling spectacle seller. The stock of such spectacle sellers is as defective as their knowledge of optics. The lenses are carelessly ground, and the lens in one eye is frequently different from the lens in the other. Wearing them will soon result in pain in the eyes or injury to the sight.

Then there is frequently the condition of unequal vision—that is, your eyes may differ in focus and each may require a different specially prescribed lens. In such cases similar lenses such as you would select for yourself or a peddler would give you must of necessity prove injurious to one or other of the eyes.

We have the appliances necessary to detect unequal vision or any other eye defect and can get the lenses ground to suit.

Nine-tenths of the cases of defective vision require glasses especially ground.

Items of Interest Locally

Corp. F. W. Ritson, one of the Lacombe district boys, has been promoted to the rank of lance-sergeant.

Corp. Tansley, of the 51st Battalion, Edmonton, spent the weekend visiting his cousins, Mrs. Nicholson and J. B. Crocker, at Lacombe.

Miss Doris Nixon, well known in Lacombe, was married in Calgary on Wednesday last to Mr. James Bond, a prominent rancher of the High River district.

We are putting on no special sales, but we are giving ordinary prices almost exactly the same as others' special prices.—Nicholson & Switzer.

B. S. Cameron's uncle, who was reported seriously ill last week, passed away on the 13th. Mr. and Mrs. Cameron went to Edmonton to attend the funeral.

Wm. Bell, of Edmonton, gave our town a visit this week on a horse-buying expedition. He said he found it hard to secure horses here at a price to suit the Edmonton market, but purchased eight of the best he could find in Pleasant Valley and Lacombe, which he shipped to the northern market.

Capt. C. W. Gaitkell, of the 50th Battalion, Calgary, was a visitor in Lacombe on Saturday, making arrangements for the removal of his family to Calgary. Capt. Gaitkell is slated for the rank of major.

Mr. Henry Walters, of Clive, has returned home from Calgary, where he has been spending the winter taking a commercial course at the Garbutt Business College. He expresses himself as very well pleased with the winter's course.

The dance in the Comet Theatre on Tuesday night in aid of the Belgian relief fund was well patronized. We understand that about sixty tickets were sold, netting a fair sum for the fund. Very satisfactory music was furnished by the Rex five-piece orchestra.

Duncan Anderson, of the Department of Agriculture, Ottawa, will speak on the patriotic duty of Canadians in increasing their production, at the meeting of the Wood Growers' Association, on Monday next, 22nd inst. Mr. Anderson is a forceful speaker and will be well worth hearing.

O. B. Moore, who purchased the Joseph Marshall farm at Rimbey, has moved into the house formerly occupied by Glen Marshall. They expect to move into their new home in a few days. He will take over Mr. Marshall's real estate, loan and insurance business. Mr. Moore was graduated from Iowa State College in the spring of 1914, while Mr. Moore was formerly a teacher in that institution.

The dance given in Boode's Hall on Friday night last by Messrs. Henderson and Porter, was well attended, and all who were there report a good time. A feature of the evening was the Highland dance, given by Mrs. J. Burns. The Rex orchestra furnished the music.

The W.C.T.U. evening at the home of Dr. and Mrs. E. M. Sharpe was a very pleasant social event. About ninety were present. An auction sale of useful articles occasioned general merriment. A program of tableaux was both pleasing and amusing. A dainty lunch, music and social enjoyment made the time pass happily. Guests departed wishing the genial host and hostess many happy years in their elegant new home.

The Department of the Interior are taking prompt steps to trace and obtain convictions against persons fraudulently converting the seed grain advanced by the Dominion government to other uses than the purpose for which it was obtained. The Royal Northwest Mounted Police have this matter actively in hand. A heavy penalty has been provided for in the Amended Seed Grain Act and any person or persons found to have sold the grain, or to have used it for any other purpose than that set forth in their application form, will be seriously prosecuted.

ALLIES UPSET KAISER'S PLANS

Rottterdam, March 15.—Information from the frontier is that the British success at Lebassee has thrown the whole German right wing line into a remarkable state of activity. Men are being hurried from all garrisons and from some of the coast places to stop the advance of the British and for days they have been collecting along the Yser, expecting that the British would attempt to throw them back there, but hoping a quick concentration would give them the advantage of the initiative. A counter plan was to move northwest in the Dixmude neighborhood in the hope of cutting off the allies along the coast of Nieuport, at the same time trying to push a wedge through in the neighborhood of Ypres.

Such importance was attached to this fresh dash for Calais; nothing short of which is expected to satisfy the German peoples craving for victory that the Kaiser himself went west in the hope of giving greater sting to the attack of his legions, but the tremendous attack of the British south of this region forestalled them, once more robbed them of the initiative, and threw out of gear all their plans. In order to meet the irresistible advance of the British, troops were hurried with the greatest speed from the Yser. So serious was their position regarded that one story from the frontier credits the German general staff with holding a midnight council in a small village in the rear of their lines, at which the Kaiser is said to have been present.

ROYAL NORTHWEST MOUNTED POLICE.
Information is asked by family of George Foster Niblock, aged near 27, has served in U.S. army, left his home near Cleveland, N.C., U.S.A., in April, 1912; has worked at Edmonton on sewer in February, 1914. His father, J. V. Niblock, Route 2, Cleveland, N.C., U.S.A., and (Sgd.) W. G. F. WELLS, Corp.

SASKATCHEWAN WILL ABOLISH BAR

Regina, March 15.—Saskatchewan will be the first province in Canada to completely abolish the bar. On July 1 next not only will the retail sale of all intoxicating liquors come to an end, but the wholesale trade will be taken over by the government and operated as a government monopoly under a system of dispensaries. Later even these dispensaries may be abolished by a referendum vote of the province.

This, in brief, is the effect of an announcement made by Premier Scott in addressing a meeting at Oxbow this afternoon in company with J. G. Turill, M.P. Premier Scott, after a lengthy review of past policy of his government in dealing with the liquor question, announced the policy by which it is now prepared to stand or fall.

Typewriter Bargain

I have had placed with me for quick sale, by a party who needs money, an Oliver Typewriter, in all respects as good as new, has been used but little. Will be sold for \$25, which is 25¢ less than first cost.—F. H. Schooley, Oliver Agent, Lacombe.

FOR SALE

1 White Oreganion Cockerels, hatched from eggs from same pen that produced winning cockerels at Calgary and Edmonton 1914 fairs, and other prize winners. Six of these cockerels is also a prize winner in 1914. Price of these cockerels is \$4 to \$5 each. Apply The Guardian Office, Lacombe.
